

EVENT SALES AGENCY

Webinar Launch.

Your client acquisition machine, built in 45 days. We fill your webinar with your buyers and make it sound like you. You present and close. We do the rest.

WELCOME

Before we dive in.

- ? Who is on the call today?
- ? Can you hear me ok, and see my screen?
- ? How much time did you set aside for today?
- ? In the next 30 minutes, what is the most important thing you want to gain?

WHY ESA

**We fill webinars and turn
attendees into buyers.**

\$60M

in event sales for clients

200+

of tickets sold over the phone

WHERE YOU ARE

Where are you now?

- ? Have you run an event before? Live or virtual? Free or paid?
- ? What is the webinar idea, and the hook?
- ? Do you have 5 to 10 case studies or proof you can show?

WHERE YOU ARE

Let us look at your audience, together.

- ? Email list size? Social following?
- ? **Screen share it.** We look at real engagement: story views, likes, comments. Not follower count.
- ? Where do your clients come from right now?

WHERE YOU ARE

Your offer and the engine.

- ? What is the back end offer you would sell, and the price?
- ? What would you do with 100 booked leads a month?
- ? If we could fill a webinar with your buyers on demand, what changes?

MAKE SURE IT FITS

Let us make sure this is a fit.

- ? Where is the business at right now? Are you profitable?
- ? This runs on paid ads. Are you set up to invest in the build plus at least **\$5,000 in ad spend** to fill your webinar?
- ? **Your engagement.** Real story views, likes, and comments are what tell us the market already wants what you have.
- ? If now is not the right time, we will tell you straight.

We only take on people we know we can help. We would rather get you ready than take your money for something that will not work yet.

THE REAL CHALLENGE

You do not have a lead problem.
You have a **predictability problem.**

Everything rides on who happens to send someone your way. There is no lever you can pull on demand. A webinar is that lever. Here is how the math works.

THE SHIFT

A webinar is not a stage. It is a **lead generation machine.**

100

register for your webinar

~30

show up live

~10

book a sales call

100

all 100 are leads we work, call, text
and email

You are not buying 10 booked calls. You are building a list of **100 buyers who raised their hand.** The no shows and the no books are still yours. That is the lever you have been missing.

IMAGINE THIS

Picture it.

Filling your webinar with 100 of your ideal buyers, whenever you choose.

You stop praying for referrals and start deciding when you grow. What would that change for you?

THE NUMBERS THAT MATTER

"What is a client worth to you **over a year?**"

So if we put 100 of those buyers in your webinar and you close even **2**, what did this just do for you? One client makes the entire thing a rounding error.

THE COST OF WAITING

And if nothing changes?

Same spot a year from now. Same dependency, same hoping the phone rings. And you will likely have burned through more on random marketing experiments that went nowhere.

The cost is not the fee.
It is another year at the mercy of referrals.

WHAT WE BUILD

Build the house, hand you the keys.

1

Fill the webinar

Ads, creative, messaging, and the hook that gets cold buyers to register. We run the ads on your account.

2

The system

Funnel, CRM, automations, speed to lead, email and SMS. The full machine in GoHighLevel.

3

Convert

Your slide deck, the proven webinar framework, and we work every lead. Day of support while you present.

Here is everything you get.

- The full webinar funnel: registration, confirmation, reminder, and replay pages in GoHighLevel
- CRM, pipeline, and A2P compliant texting set up for you
- Up to **50 static ads**, **20 video scripts**, and your VSL script, and we run the ads on your account
- Full email and SMS sequences: reminders, no show, replay, and nurture
- An **AI bot** that works every lead with speed to lead
- Your slide deck and the proven webinar sales framework
- **Day of support:** we are on the webinar running the tech while you present
- Weekly 1 on 1 calls, daily Slack, and a dedicated account manager
- The **165 point build** with 8 phase QA you approve at every step, plus video training so your team can run it after

We make it **think like your business** and **sound like you.**

- **Your Business Brain.** An AI brain of your business: your offer, story, proof, and market. Yours to keep.
- **Your voice, captured.** We ingest your past emails, SMS, and sales scripts so every message sounds like you.
- **Your sales motion, learned.** We take recordings of your past sales calls, the ones that closed and the ones that did not, so the AI learns how you actually sell and what works.
- Every message and every follow up sounds like you, not a generic funnel.

THE NUMBERS

Predictable, not magic.

Ad spend (your account, minimum)	\$5,000
Cost per registrant (\$30 to \$50)	about \$50
Registrants, then live (30%), then booked (30%)	100 / 30 / 10
Real leads worked (call, text, email)	100

The first webinar gives us your true cost per registration and show rate. Every one after gets sharper.

PROOF

Our own webinar.

**\$5K ads, about 300 registrants, about 100
live, 25 booked, 7 sold at \$15K, \$105K.**

Our own webinar, our \$15K offer. About a **21x** return on ad spend. That was warm, so model cold lower. The point is the system is repeatable, not a one time event.

THE 45 DAY BUILD

From kickoff to a full webinar.

Week 1 Onboarding, access, A2P submitted, and your Business Brain built

Week 2 to 3 Funnel, CRM, automations, the AI bot, and your voice captured

Week 4 Ad creative, your slide deck, the sales framework, full QA

Week 5 to 6 Ads live, your webinar fills, you present, we support you live

THE VALUE

What this would cost in pieces.

Media buyer or ad agency	\$3,000 / mo
Funnel and CRM build	\$5,000+
Copywriter: ads, emails, SMS, VSL	\$4,000+
AI setup and automations	\$3,000+
Sales deck, framework, day of support	\$3,000+
Pieced together, and months of herding	\$18,000+
One team, done in 45 days	\$9,800

Illustrative market rates for comparison.

YOUR INVESTMENT

\$9,800

one time, build and first webinar

Plus 10% of back end revenue (only above the \$9,800)	10%
---	------------

Ad spend, your account, minimum per webinar	\$5,000
---	----------------

Payment, in full to start	\$9,800, or Affirm / Klarna
---------------------------	------------------------------------

Skin in the game: the 10% only kicks in above your first \$9,800 collected. If you do not make your investment back, we do not take a percentage.

TWO PATHS

Either way, you win.

YOU ARE A FIT

Webinar Launch

We build the full machine and the AI layer, and fill your webinar.
The offer you just saw.
